## Technical Skills

---

**Languages:** Java, C++ (Data Structures & Algorithms), HTML5, CSS3

**Developer Tools:** Git, GitHub, VS Code, Bootstrap, Tailwind CSS, Postman, Maven

**Technologies/Frameworks/Libraries:** Spring Boot, React.js, JPA, Hibernate, REST APIs, JSON, Bootstrap, Tailwind CSS, Microsoft Azure, Git, GitHub, Maven, VS Code

## Experience

---

### LTIMindtree

October 2024 – Present

*Software Engineer*

*Hinjewadi, Pune*

- Developed an end-to-end onboarding automation system, reducing manual effort by 80% and cutting processing time from 5 days to 1 day.
- Built React.js UI with reusable components, improving development speed by 25% and enhancing responsiveness across 10+ device types
- Created Spring Boot, JPA, Hibernate backend services, handling 100+ API requests per minute with 99.9% uptime.
- Added real-time onboarding trackers and automated email notifications, increasing stakeholder update frequency by 50%
- Deployed system on Microsoft Azure Cloud, achieving high availability (99.95%) and scaling to support 500+ concurrent users.
- Optimized database queries, reducing query execution time by 35% for datasets of 1M+ records.

### Keyideas InfoTech

March 2024 – October 2024

*Software Developer Trainee*

*Remote*

- Created AR filters using MediaPipe for face detection/tracking, boosting user engagement by 30%, maintaining sub-200ms latency, and ensuring seamless performance across desktop, Android, and iOS platforms.
- Delivered React.js, Node.js, and MongoDB dashboards, automating reports, reducing manual reporting effort by 40%, and enabling real-time analytics for faster decision-making.
- Integrated RESTful APIs with JWT/OAuth2 authentication, improving API response time by 25%, enhancing security compliance, and reducing unauthorized access incidents by 15%.
- Deployed applications on Microsoft Azure with CI/CD pipelines, reducing deployment time by 50%, ensuring zero-downtime releases, and maintaining 99.9% system uptime post-deployment.

## Achievements

---

- Solved 500+ DSA problems on LeetCode; 400+ day streak; 10+ badges.
- Solved 500+ coding challenges on GeeksforGeeks, covering arrays, DP, graphs, and system design.
- Consistently ranked in competitive programming challenges.

## Projects

---

### Online Ticket Booking System

January 2024

- Implemented a full-stack web app with Spring Boot (Java) backend and React.js responsive UI, supporting 500+ bookings/day.
- Implemented user registration, seat selection, and booking with secure JWT authentication, reducing booking errors by 20%.
- Designed and optimized MySQL schemas, improving query performance by 30% and ensuring data accuracy for 100K+ records.
- Enabled real-time booking updates with robust validation, achieving 99.9% data integrity.

## Education

---

### G.L Bajaj Group of Institutions

November. 2020 – May 2024

*B.Tech in Computer Science and Engineering (AI and ML) (CGPA of 7.7)*

### Wisdom Public School

April. 2019 – May 2020

*12th Standard - Science (75.6%)*

### Wisdom Public School

April 2017 – March 2018

*10th Standard (81.8%)*
